OFFICE OF THE MAYOR
CITY OF CHICAGO

April 6, 1973.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN—I should like to advise you that the Public Building Commission of Chicago has revised its site designation for the West Side Police Area Headquarters and Courts Facility, CP-1, by adding the alley north of the previous northerly line of the site lying between South Albany Avenue and South Kedzie Avenue. Since this alley is only partially a dedicated alley and the balance is property acquired by the County of Cook as part of the Eisenhower Expressway, it is necessary to enlarge the site designation in order that the Commission has authority to obtain title for this property.

I am therefore transmitting a proposed resolution for your consideration which would approve the revised site designation in accordance with the Public Building Commission Act.

Very truly yours,

(Signed) RICHARD J. DALEY,

Mayor.

(Signed) RICHARD J. DALEY,

Mayor.

Tribute Paid to Late Dr. Louis N. Katz.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

WHEREAS, Dr. Katz, a South Side resident of Chicago for many years, was head of the Cardiovascular Institute at Michael Reese Hospital since 1930, and director emeritus since 1967. Dr. Katz trained many of the world's prominent heart specialists and was the author of more than 550 scientific papers and seven textbooks on heart disease. His career spanned the years that saw almost all of the major advances against heart disease; and

He was past president of the American Society for the Study of Arteriosclerosis, the Society for Experimental Biology and Medicine, the American Physiological Society and a number of Chicago organizations including the Chicago Heart Association. He was also honorary life president of the Inter-American Society of Cardiologists and a life councilor of the International Society of Cardiology; and

CITY OF CHICAGO
DEPARTMENT OF LAW

April 2, 1973.

To the Honorable, The City Council of the City of Chicago:

Re: *City vs. Loitz*
Illinois Appellate Court No. 56462

LADIES AND GENTLEMEN—On April 2, 1973, the Illinois Appellate Court handed down a decision in the above entitled cause affirming the trial court's granting of the City's motion to dismiss.

This was originally a demolition suit, in which the defendent filed a counterclaim alleging that the City's activities looking to condemnation constituted a taking of their property without compensation. City officials had planned to purchase plaintiff's gasoline station and had negotiated a purchase price, but had never filed a petition to condemn because the project was eventually abandoned.

The Appellate Court held that, under these circumstances, the law in Illinois is clear that acts of public officials prior to condemnation do not constitute the taking of, the invasion of, or damage to property.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

The contractor will include the portion of the sentence immediately preceding paragraph a. and the provisions of paragraph a. through g. in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance. Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The Sponsor further agrees that it will be bound by the above Equal Opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, that if the applicant so participating is a State or local government, the above Equal Opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The Sponsor agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor that it will furnish the administering agency with the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of 24 September 1965, with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of

Labor pursuant to Part III, Subpart D, of the Executive Order. In addition, the Sponsor agrees that if it fails or refused to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sponsor under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from the Sponsor; or refer the case to the Department of Justice for appropriate legal proceedings.

9. The Sponsor hereby convenants and agrees that its financial records of the project, established, maintained and made available to personnel of the FAA in conformity to Section 151.55 of the Regulations of the Federal Aviation Agency (14 CFR 151) will also be available to representatives of the Comptroller General of the United States.

10. By its acceptance hereof, the Sponsor hereby covenants that to the extent it has or may have either present or future control over each area identified on the Exhibit "A" as "clear zone", and unless exceptions to or deviations from the following obligations have been granted to the Sponsor in writing by the FAA, it will clear said area or areas of any existing structure or any natural growth which constitutes an obstruction to air navigation with the standards established by Section 77.23 as applied to Section 77.25, Part 77, of the Federal Aviation Regulations; and the Sponsor further covenants that it will control the subsequent erection of structures and control natural growth to the extent necessary to prevent the creation of obstructions within said standards.

11. The Sponsor hereby further covenants that it will not permit any permanent-type structures, other than structures required for aids to air navigation and such other structures as may be specifically excepted in writing by the FAA, to be erected on, and that it will cause any existing structures to be removed from, each area identified on the "Exhibit A" as "clear zone" or any portions thereof, concerning which the Sponsor has acquired a fee interest with federal financial assistance, irrespective of whether such structures constitute an obstruction to air navigation.

12. It is understood and agreed that the terms "Federal Aviation Agency" or "Federal Airport Act", wherever they appear in this agreement, in the Project Application, plans and specifications, or in any other document constituting a part of this agreement, shall be deemed to mean "Federal Aviation Administration" or the "Airport and Airway Development Act of 1970", as the case may be.

13. It is also understood and agreed that Paragraph 2, Part III, of the Project Application is revised to read as follows:

The Sponsor will operate the airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes; provided, that the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport; and provided further, that the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the airport if such action is necessary -

a. For safe and efficient use of the airport,

b. To keep operation activities within acceptable noise levels, or

c. To serve the civil aviation needs of the public.

14. The FAA in tendering this offer on behalf of the United States recognizes the existence of an agency relationship between the City of Chicago, Illinois, as principal, and the State of Illinois, Department of Aeronautics, as agent, created by an Agreement of Limited Agency entered into for and on behalf of the City of Chicago on 19 July 1972, and for and on behalf of the State of Illinois, Department of Aeronautics on 31 July 1972. It is understood and agreed that such Agreement of Limited Agency will not be amended or terminated without prior approval, in writing, of the FAA.

15. It is understood and agreed by and between the parties hereto that any reference herein or in the aforesaid Project Application, dated 5 July 1972 to plans and specifications shall mean the plans and specifications as approved by the Metro Engineer, Chicago Airports District Office, Great Lakes Region, Federal Aviation Administration on 8 March 1972.

16. The Federal Government does not plan or contemplate the construction of any structures pursuant to Paragraph 11 of Part III - Sponsor's Assurances of the Project Application, and therefore it is understood and agreed that the Sponsor is under no obligation to furnish any such area or rights without cost to the Federal Government under this Grant Agreement. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the Sponsor under prior Grant Agreements to furnish rent free space for the activities specified in such Agreements.

17. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, final grant payment hereunder until the Sponsor has submitted for review by the FAA all leases and concession agreements in effect at the said Airport, that have not been previously reviewed by the FAA, which grant rights to conduct enterprises rendering services to the public, and the same have been determined by the FAA to be nonobjectionable.

18. It is understood and agreed by and between the parties hereto that construction of the improvements described in this Grant Offer has begun prior to the Grant Offer being accepted by the Sponsor, and that the construction accomplished prior to the acceptance of the Grant Offer is not eligible for Federal participation. That non-eligible construction work will be determined by an inventory conducted on the date of acceptance of this Grant Offer by representatives of the parties hereto and the cost of the construction work performed to date determined by the bid prices of the construction contract. This inventory of non-eligible cost when agreed to by the parties hereto will become a part of this Grant Agreement by this reference. It is further covenanted and agreed that the Sponsor shall maintain, as a portion of the cost records covering this project, separable records of cost pertaining to the above referred items excluded from Federal participation under this project, and that said records shall be available for inspection and audit by the FAA to the end that the costs of the excluded items may be definitely determined.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Airport and Airway Development Act of 1970, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

SCHEDULE OF THE CONTRACT

Section I. Scope of Work and Contract Objectives

A. The contractor under this contract is required to develop an evaluation system which can be incorporated by Metropolitan Area Manpower Planners into their planning activities. The system to be developed will in effect provide manpower planners an evaluation tool which will enable them to:

1. Identify and evaluate choices of programs or approaches available for effecting the development and utilization of manpower resources in their area;

2. Project the short term and long term, (far reaching) implications of such programs and approaches in relationship to the over all goals of utilizing manpower resources and raising the levels of employment and income and;

3. Select a mix of services, programs or approaches which will maximize the solution of manpower, (employment), problems while minimizing the cost of acheiving such objective; or in the converse the system should enable the planners to quantify in terms of dollars the cost of implementing certain programs, approaches and/or mixes so as to permit a reasonable determination of what mix would result in maximum achievement considering limitations on available funds and their resources.

B. The system developed should be capable of taking into consideration, target population, economic conditions, (current and forecasted), local industry and other employment mix and needs, levels of funding which might be available and other resources such as training facilities, developed or operating programs and any other factors which could have a significant impact and require consideration in the development of comprehensive achievable manpower plans. (Yet it should be flexible enough to permit the introduction into developed plans or plans being developed any significant developments not heretofore considered for the purpose of modifying such plans to accommodate such developments without a complete rework of the plan).

C. The capability of the system should be broad enough to permit its use, with possibly only such minor modifications as may be necessary to take care of local problems, characteristics or peculiarities, by any metropolitan area planning group regardless of location or size of target area. The system and the method whereby it can be utilized should of sufficient simplicity and backed up by adequate instruction as to application so that a high degree of sophistication would not be necessary for effective use.

D. As an aid to the manpower planners in developing more effective plans and optimizing the effective end result of available funds and other resources, the system should, to the extent feasible, permit the area manpower planners to assess the adequacy and effectiveness of current manpower activities in relation to the needs of labor force for manpower services and jobs.

E. Note:

The contractor's proposal appended to letter of February 9, 1973, except for Part I, Purpose, is incorporated herein by reference. In the event of conflict or inconsistency between the proposal and the scope of work and objectives delineated above, or any other portion of the schedule of this contract, the schedule will take precedence and govern.

F. Added Effort

Added Effort. The system shall, if feasible, incorporate or provide as an adjunct a means of establishing relative weights, quantitative and qualitiative, for the various factor which will be evaluated and considered in the utilization of the system.

Section II. Time Phasing and Direction of Effort

While it will be the basic responsibility of the contractor under this contract to develop and provide a system as described in the above scope of work, it is contemplated the development of the system will be broken down in 6 phases as depicted in the attached time phasing chart, Attachment No. 1, and that the contractor's direction of effort during those phases will generally fall within the ten component areas shown in the chart, as further amplified in Attachment No. 2., Delineation of Effort and Work by Component.

The contractor's efforts relative to these components shall not in itself constitute comformance with the scope of work or the furnishing of a satisfactory system. They represent the contractor's approach to the direction of effort required to develop a satisfactory system and otherwise fulfilling the requirement of the scope of work. Should the effort expended not result in an acceptable system, the contractor still has the basic responsiblity to provide an acceptable system.

Section III. Government Review and Notification to the Contracting Officer

A. While it is recognized that it is the contractor's responsibility to develop a system that will fulfill the requirements of the scope of work, since this will be a cost reimbursement type contract, the government reserves the right to periodic review of the contractor's progress and achievement, both at specific times indicated below, and such other times as the contracting officer may consider reasonably necessary.

The contracting officer through his representative the project officer, will conduct reviews once each month and/or at a near the (forecasted) completion of a stage or component.

B. The contractor shall notify the contracting officer or Project Officer whenever he:

1. Has encountered some problem which may require major changes in direction and effort;

2. Believes, based on investigation made, information developed or conclusions reached, that a change in direction would be more economical, provide a better system, or speed up delivery, or

3. Determines that a major change in subcontractors/subcontracting is warrante(

4. Determines a change in staffing patterns or key personnel is required.

It shall be the contractor's responsibility to provide the contracting officer or Project officer with such notification sufficiently in advance of proposed implementation so that the contracting officer will have reasonable time to evaluate the proposed change.

Section IV Delivery Schedule

A. The contractor shall deliver an acceptable system within 12 months after date this contract is executed by the contracting officer. The contracting officer may, based upon the effect of certain changes resulting from conditions enumerated in Section III-B, agree to reasonable extensions in final delivery.

Any additional Reproductions of Printed Materials or Reports will be furnished within 4 months after acceptance of the system.

B. Delivery of reports shall be in accordance with the report schedule incorporated in Attachment A Reporting Requirements. Indicated delivery requirements, may with the prior approval of the contracting officer, be varied to coincide with the completion of certain components or phases of the work.

C. The contractor shall, based on a selection made in conjunction with the contracting officer, or project officer, furnish copies or sets of a preliminary draft/set up of the system, to al least 3 Metropolitan area planning groups for evaluation, comments and suggestions. Selection of recipients should be made during Phase 5. Submissions of the drafts should be made no later than 5 calendar days after the contractor commences Phase 6. "Testing". Recipients will advise the contracting officer or Project Officer and/or the contractor of their reaction within 15 working days after receipt.

If the contracting officer should determine that any of the comments, suggestions or deficiencies indicated in such responses would merit consideration in the formulation of the final version of the system, and would enhance the serviceability of system, he will authorize a reasonable extension in the time of delivery and authorize the use of residual contract funds, or if necessary provide additional funds to the extent available.

Should it develop based upon the evaluation by the recipients, that there are serious deficiencies in the system, or that the system as developed cannot be utilized by other Metropolitan area planning groups as contemplated under paragraph C, Section I of the contract, then the contracting officer may extend the date for final delivery, however, the contractor will be required to complete the developement of the system to meet such requirement within alloted contract funds.

Section V. Criteria for Final Acceptance of the System

The final system as delivered to the Government shall, in addition to meeting the requirements of the scope of work, be capable of, encompass or provide:

1. A method of assessing the qualitative value of occupational training against job placement.

2. Integration in the evaluation system economic indicators, labor market data and labor force data, giving special attention to worker's needs for job training, general education, employment services, assistance, and job opportunities and industrial demand for workers with various skills.

3. Incorporation into the evaluation system data obtained through an inventory of major manpower programs concerning all manpower programs, both public and private, which are determined to be necessary for making local comprehensive manpower planning decisions.

4. Inclusion of tools for the on-going evaluation of manpower activities in quantitative and qualitative terms, which would enable balanced appraisal of alternative approaches to solving manpower problems, including the problems of overlapping programs and gaps in needed services.

   a. Quantitative

      The system should emphasize the utilization of the evaluation technique of "cost-effectiveness" and enable the planner to examine program functions and ascertain which approaches are best able to bring a particular target population to an objective, measurable level of achievement at the lowest dollar cost. The result, should be that planners will be able to make funding decisions based on knowledge that a particular method is the most effective and economical way in which to use limited manpower resources.

The cost-effectiveness technique will be based on a "functional" approach to manpower service delivery. (The functions, or types of manpower activities, may be defined broadly (work experience, on-the-job training, job placement, etc.) or narrowly (outreach, orientation, counseling, etc. By studying individual manpower service functions, within the cost effectiveness concept, planners should be better able to judge the relative effectiveness of one approach against another and be able to determine with more certainty which methods and which agencies are most effective in the provision of a particular service or function.

The inclusion of the cost-effectiveness technique in the system will be based on functional categories and lists that are susceptible to cost-analysis.

The following examples are illustrative of the types of decisions or determination manpower planners should be able to make: utilizing a cost-effectiveness model:

a. The target groups for which a low support, (no stipend), program is most effective.

b. Basic education components, currently given in a variety of setting, can be compared one against the other and a determination made as the most economical approach for achieving employment objectives.

c. Determine the extent to which basic education contributes to achieving the employment objectives of a particular target group.

2. Qualitative

The evaluation aspect of the system will take the qualitative aspects into account in a systematic way. The system will incorporate qualitative assessment techniques such as inspections of service delivery components as well as tests which measure work-related attitudes.

The evaluation aspect of the system will not replace judgment when it comes to weighing qualitative assessments against quantitative assessments; however, it will aid in determining the purposes for which qualitative assessments are necessary and provide the effective means for its systematic appraisal.

5. Incorporated in the manual will be a practical step-by-step method for evaluating on a continuing basis the total manpower activity of a planning area. The manual will set forth how labor market conditions and labor force data can be brought to bear upon the manpower activities under the jurisdiction of local government. This manual will contain realistic practical guides for measuring and, when possible, comparing the relative effectiveness and impact of various manpower strategies.

The Project Officer, who will be designated in writing, will be the contracting officer's authorized representative for the purpose of monitoring progress, evaluation of efforts and results and final acceptance of the system, reports and other requirements of the schedule of the contract.

Section VI Payments

The contractor shall be paid monthly upon submission of invoices as provided for in clause 4, "allowable cost, fixed fee and payments" of the General Provisions, more particularly sub paragraph (b), The detail supporting the invoice shall follow the cost delineation in the attached budget, Attachments No. 3 The contractor may, if he finds it necessary, invoice more frequently for costs incurred for personnel services or other personnel costs.

Upon demonstrated need, the contracting officer will consider the possiblity of advance payments.

Section VII. Budget

The cost estimate appended hereto as attachment No 3 is budgetary in nature, and the contractor is not constrained to any particular limit with respect to any item of cost, however, if the contractor expects any substantial shift in expenditures, as for example from personnel costs to subcontracting he should notify the contracting officer or Project officer in advance and provide the reason for such shift. This flexibility with respect to expenditures in no way relieves the contractor from responsibility for good management of expenditures and the responsibility for assuring that expenditures are consistent with need, and are reasonable with respect to the performance under the contract. Further, the flexibility in no way diminishes the contractor responsibilities or the Government rights under Clause 4.

Special Note.

Since the estimate for consultant and subcontract services is primarily a contingency amount to cover the cost of such services as they may rise, Clause 8 "subcontracts of the General Provisions is hereby modified to reduce the dollar limit for subcontracts, which require the contractor to give the contracting officer advance notification. Any proposed subcontract, (including consultant services), in excess of $1000.00, or subcontracts with a single subcontractor, (or consultant), which in the aggregate is expected to exceed $1000.00 shall be reported. Information under sub paragraph (b) is required, except that with respect to sub paragraph (b) (4), the $10,000 or $100,000.00 limitation will apply.

Section VIII Reports

The contractor shall, unless otherwise directed by the contracting officer, furnishes reports at the times and in the form, including contact, delineated in attachment No. 4 entitle Preparation of Reports.

ATTACHMENT No. 2

DELINEATION OF EFFORT AND WORK
BY COMPONENT AND PHASE

The effort is broken into ten (10) components which will take place according to the sequence indicated on Chart A; Attachment No. 1.

A. Phase I

Preliminary Analysis

The development of the system entails the bringing together in a coherent way of a number of different types of information. Therefore, a preliminary stage is necessary for the delineation of the approach that will be taken and, prior to its collection, how information will be utilized. It will establish the scope of research which will be accomplished in each of the three components in the second phase. The preliminary analysis will determine the manner in which information is to be collected and organized so that the research in the three different areas of review to be undertaken during the second stage will be compatible. The preliminary analysis will aid in determining what portion of the work of the second phase should be carried out in-house or out-house and the amount of resources to be allocated to the three concurrent components of the second stage.

Projected time: 2 months

B. Phase II

The following three components will be undertaken concurrently:

1. Review of Labor Market, Labor Force and Population Data Sources

This component will consist of a review, organization and analysis of economic and social data relevant to manpower planning decisions. The material studied will be primarily that of the City of Chicago. However, existing materials from other areas will be studied with specific attention to the shape, content and timing of information sources. It is expected that this component will involve in-depth studies of material such as the census data, job bank information, occupational projection information, and economic indicators. This information will be studied with the object of determinining how the information can be most effectively brought to bear upon manpower planning decisions.

2. Review of Research Studies and Evaluations

Prior work accomplished by others in the evaluation of manpower programs, including cross-program evaluations and the conceptual framework for an on-going evaluation system applicable to a comprehensive manpower system. Such work will be researched in this component with the object of utilizing the information gained and techniques developed in these studies.

3. Review of Program Data Sources

The major program information sources will be studied. The shape and timing of information systems currently in use will be researched with the object of integrating them into the evaluation system. These will be analyzed and organized according to the format developed in the Preliminary Analysis. It is expected that cost-analysis functional division of existing major manpower programs will form a substantial segment of this component. Reporting systems developed under the Manpower Administration such as the OPCS, the MA-101 Series, (add*) the studied. In addition, prior efforts in developing a cost-effectiveness evaluation system for the Model Cities Manpower Development Program will be analyzed.

Projected time: 2 months

C. Phase III

Intermediate Analysis

In this component, the three bodies of knowledge developed in the second phase will be brought together. The information will be analyzed in terms of relevant manpower planning decisions. Gaps in existing data sources will be determined, functional categories will be established, inputs and outputs for these functional categories will be analyzed. During this stage scope of each of the succeding components will be determined and the shape of the evaluation system will be delienated. Additionally, the objectives of this component will include the determination of what portions of the work of the fourth phase should be carried out inhouse or out-house and allocation of resources for the three concurrent components comprising the fourth phase.

D. Phase IV

The following three components will be undertaken concurrently:

1. Development of Inventory and Additional Manpower Data Needs

In this component, information needs, as identified in the Intermediate Analysis, will be developed. It is expected that this will entail development of the methods procedures forms and checklists for an inventory of manpower-related programs. Additionally, this component will to the extent necessary entail the development of (1) a model system of manpower and economic indicators to report a series of key variables important to program planning and evaluation, and (2) the design and implementation of a manpower and economic forecasting model (for Chicago) to project short-term and long-range industrial and occupational trends.

* The C.E.P. Management System and ESAR's reporting system will be studied.

2. Qualitative Analysis

In this component, efforts will be concentrated on the qualitative aspects of manpower programs -- those which cannot be weighed solely in terms of cost. These qualitative aspects relate both to the quality of services provided and the social benefits derived from manpower programs. The Intermediate Analysis under phase III will identify the gaps in Qualitative Analysis and establish the manner in which such benefits can be assessed. This component will develop the methods, procedures, forms and checklists to measure manpower services qualitatively and these measures will be integrated with cost-effectiveness so that the system will provide a balanced appraisal of manpower strategies.

3. Development of a Cost-Effectiveness Evaluation System

This component will encompass development of the methods, procedures, forms and checklists which will prod ce a cost-effectiveness evaluation system on an on-going basis. It is expected that there will be a development of procedures and forms and checklists for cost-accounting and program reporting. Computers will be utilized so that pertinent data can be readily obtained. Additionally, experts in data analysis will participate in this component.

Projected time: 3 months

E. Phases V.

Final Analysis and Preparation of Manual

In this component, once again the materials and results of the previous components will be brought together and analyzed. In this phase there will be a development of a manual which sets out in a step-by-step way how any planning area could go about implementing the evaluation system incorporated therein. Additionally it will state the assumptions upon which the system is based and the ways in which the system should be used.

Projected time: 2 months

F. Phases VI.

Testing Stage

In the testing stage, the system will be applied to the city of Chicago in order to test the validity and utlility of the results obtained. Although it is expected that the bulk of the information gathering for Chicago will be accomplished in carrying out previous components, the introduction of the methods, procedures, forms and checklists which are developed will require additionally data collection. In this stage, revisions in the manual will be made, if required, and limitations of the system described.

Projected time: 1 month

> The Staff of the Mayor's Office of Manpower will participate maximally, coincident with its capabilities, in the design of the evaluation system at no direct cost to the contract in addition to those included in the budget. Therefore, outside contractors and consultants will be employed only for highly technical functions that are beyond the capability of staff to perform.

It is recognized, however, that the success of the development of the system depends upon obtaining the best available technical experts and the professional qualifications of those involved will be the overriding factor in selection of the method for expenditures of these funds.

Funds will be expended in the study components as identified on Chart A attachment No. 1 & 2. The distribution of funds in each phase will be determined as part of the objectives of the Preliminary and Intermediate Analyses.

GENERAL REPORTING CONDITIONS

A. Monthly Reports - Brief progress reports (6 copies) will be submitted to the Project Officer within seven (7) days after the end of each month. Reports should indicate that areas are being covered as planned; whether satisfactory progress is being made; or problems encountered and whether expenditures are within anticipated limits.

B. Major Reports - There will be four major reports, corresponding respectively to the Preliminary Analysis, Intermediate Analysis, Final Analysis and Preparation of Manual, and the Testing State (See Chart A). Drafts of the third report will be submitted (15 copies) 30 days after completion of the final analysis and will consist of draft copies of the step-by-step manual for application of the evaluation system developed. The drafts of the fourth report will be submitted (15 copies) 30 days after completion of the testing phase. Final copies in the amount of 300 copies will be submitted as soon as possible depending upon printers schedules.

A draft of a separately bound precise (1,000 to 5,000) words of the highlights of all four reports will accompany the fourth report. The contracting officer will inform the contractor of any request for changes not later than 45 days after delivery of draft. The final draft will arrive at the office of the contracting officer not later than 30 days after contracting officer has submitted comments on draft report, (See Sections D through H for Specifications.)

C. The contractor will furnish the number of copies of major interim and final reports as specified by the contracting officer. In submitting any major report, the contractor shall not provide a total of more than 25,000 pages, the limitation imposed by Section 36 of the Government Printing and Binding Regulations, published April, 1971, by the Joint Committee on Printing of the Congress of the United States.

The contractor will address all reports, postage paid, to the project officer. He shall not submit or deliver reports, deriving from or substantially concerning work under this contract to any persons, agency or instrumentality other than the Government's authorized representative.

D. Reports and any written material concerned with this evaluation will be sent only to the contracting officer and project officer and will not be used by the contractor for purposes other than fulfilling the evaluation contract.

E. The final and major interim report will be prepared in accordance with the Standards for Final and Major Interim Reports of Evaluation Studies found in Attachment No. 5 of this proposal.

F. All reports submitted pursuant to this contract shall have a cover sheet with the title only and a title page which displays the following items:

(a) Name of contractor.

(b) Title identifying the particular report.

under Department of Labor Contract No._____.

(d) Date of submittal of the report.

(e) The following disclaimer statement:

"This study conducted and the report were prepared under a contract for the Office of Policy, Evaluation and Research of the Manpower Administration of the U. S. Department of Labor under the authority of (Name of Legislation). Organizations undertaking such projects under Government sponsorship are encouraged to state their findings and express their judgements freely. Therefore, points of view or opinions stated in this document do not necessarily reporesent the official position of the Department of Labor."

G. All final reports are the property of the Department of Labor and may be released to the public by the Department after a period of time following its acceptance. Release of information is the responsibility of the Department of Labor.

STANDARDS FOR FINAL AND MAJOR REPORTS

Since the objectives of studies differ greatly, it is expected that there will be variation in reports. Format, style, size, method of treatment, degree of specificity concerning individual projects--all of those will differ. However, final reports and some major reports may be announced and distributed through the National Technical Information Service of the U. S. Department of Commerce. This requires some standardization of format. Also, there are certain general principles concerning the content of reports which can be advanced. These are outlined below.

The standards apply to all major reports, whether final or interim.

A. Content

1. Reports, particularly final, should be addressed to the objectives specified in the contract.

Important findings not related to particular objectives should also be treated, of course. When the evaluators have been unable to find pertinent data concerning a particular objective, this should be stated and explained.

2. Reports should be based on the findings of the evaluators.

The quality of the data on which these findings are based should be described. Findings or conclusions which are based on the preknowledge of the evaluators, or on other research or evaluation studies, should be clearly identified as such. Findings or conclusions of this kind should be separated, at least by paragraphing, from findings and conclusions based on data obtained in the course of the work.

3. The basis for favorable or adverse statements should be given.

Particularly favorable or adverse findings should be documented in enough detail to enable the reader to draw conclusions about the validity of the findings. Conclusions based on unevaluated hearsay, or on subjective opinions of persons interviewed, are sometimes important, and when they are important should not be avoided; however, the text of the report should identify motives to individuals or organizations unless there are substantive indications of these motives.

4. Personal opinion should be identified as such.

There is room for the personal opinions of the report writers, provided these opinions are based on solid information, do not merely reflect personal bias, are stated in a restrained way and are clearly identified as personal opinions of the writers.

5. The report should be frank and objective.

It should "tell it like it is", without fear of consequences, within the framework of the documentation described above, and without specific references to individuals whose identification is not essential to significant evaluation findings. If at any time a contractor has other important information about an individual or group of individuals, this should be the subject of a separate, confidential communication.

6. Reports should be as clearly and succinctly written as the coverage permits.

The tone should be calm, not hortatory or indignant; advocacy of particular policies or procedures should always be based on findings and conclusions. Professional jargon not understood by the majority of readers should be avoided.

7. Recommendations should be clearly set out.

If the contract requires recommendations, or if the contractor wishes to make recommendations, they should be in separate clearly labeled paragraphs. They may be scattered throughout the report; however, all recommendations should be brought together at one point in the report.

8. No pertinent program topic is forbidden.

Evaluators and report writers should bear in mind at all times that they are not bound to the goals of the contract itself, but may range beyond them in their findings; that the usefulness, validity, or effectiveness of any policy, and procedure, any goal, any structure, even any program, may be questioned in a report, within the structure of objectivity and thoroughness described above.

B. Format

1. Precis of Highlights

Every major report should be accompanied by a separately bound report of the highlights of the study. Contractors will be expected to furnish a draft of this precis along with a draft of the major report. This document should not attempt to give a summary of the whole report, but should describe the report briefly and point out the most significant findings, conclusions and recommendations. This precis is to enable executive who do not wish to read the whole report to obtain a clhar idea of what is in it.

This report of highlights should attempt to capture the tone, as well as the content, of the principal findings and recommendations of the report. In other words, it should give the same kind of balancing favorable information that is given in the main report and should not because of its brevity treat only adverse findings. By the same token, it should not be blander or more favorable than the basic report itself.

2. Final reports and some major reports will be released to the public, on request, thirty to forty-five days after receipt. To facilitate this purpose, such reports should conform with the guidelines "Format Standards for Scientific and Technical Reports Prepared by or for the Federal Government." A copy of these guidelines will be furnished if the contractor does not have one. A form for the standard title page for Technical Reports will also be furnished and should be bound with the report or inserted.

Background Information

The Uptown Neighborhood Health Center, 845 West Wilson Avenue, was opened on September 25, 1972 to serve the residents of the Uptown Model Cities Target Area. This area has a total population of 50,023 (1970 census) with 9% (4.812) under five years of age. Fourteen percent of the residents are 60 years of age and over, which is 31% above the city average for that age group.

The ethnic composition of this area is 85% white (42,588), 5% Negro (2,686), 2% American Indian, and 7% are other races. The white population is predominantly Appalachian and Spanish-speaking.

The large number of elderly residents accounts for the high mortality rate in the area. The 1970 mortality rate was 18.8 per 1,000 population compared to 11.4 for Chicago as a whole, higher by 65%. The deaths from heart disease, vascular lesions, arteriosclerosis, and diabetes represent 54% of the deaths in the area.

Construction of the new Neighborhood Health Center was funded under the Chicago Model Cities program. It is a part of the Comprehensive Neighborhood Health Center Program of the Chicago Board of Health, presently projected to include eight centers city-wide. The 38,000 square foot facility is owned by the City of Chicago and operated by the Chicago Board of Health and has the projected capacity of serving an enrolled population of 25,000. The Neighborhood Health Center building design features eight clusters of examination and consultation rooms including mental health. The center also has complete dentistry, radiology, laboratory, pharmacy, medical records, and a children's playroom. The urgency cluster has been equipped to treat acute illnesses as well as minor injuries and accidents.

Currently, services are being provided to prenatal, postpartum, family planning, high risk infant and well-baby patients under federal and corporate funded programs. In addition, a core of direct medical specialty, preventive and ambulatory services, urgency care, non-medical supportive services and a medically related dental unit are offered. Mental Health and tuberculosis treatment programs receive separate federal and state grants as well as corporate funds. Adult multi-phasic testing is planned as funding allows.

The Uptown Neighborhood Health Center was completed at a cost of $2,759,000 including $393,000 for equipment and furnishings.

The following is said order as passed:

Ordered, That the Committee on Local Transportation is hereby authorized and directed to request the Chicago Transit Authority to remove the existing bus stop located at the viaduct a block and a half from the Chicago Housing Authority Building for Senior Citizens at No. 1447 S. Ashland Avenue to a point in front of the said building.

Chicago Transit Authority Requested to Increase Communication Facilities, Etc.

The Committee on Local Transportation submitted a report recommending that the City Council adopt the following proposed resolution which was referred to the committee (on March 14, 1973, page 5258):

WHEREAS,

1. Among other crimes of violence on the CTA, Chicago was horrified on July 5, 1971, by the wanton robbery and murder of Dr. Julius Spiro in the unattended Washington-State station area; and again on May 13, 1972, by the wanton robbery and murder of Jerome Kulis on a north-south rapid transit train; and more recently on January 29, 1973, by the senseless murder of Benjamin Sheffel of 661 W. Sheridan Road as he was returning on a Howard Street train from his work in the steel mills.
2. On May 17, 1972, the City Council enacted an ordinance for the Mayor to request a $148,000 grant for U.S.-funded "transit security study." The application, filed by the Mayor on May 27, 1972, said that *four* months would be needed for the Department of Public Works to complete the study, but now the Department says the study will not be completed, at the earliest, until July 1973, *fourteen* months after the May 1972 ordinance. Only thereafter, the city administration may propose asking a $2,000,000 grant for transit security devices.
3. Meanwhile, Chicago cannot wait. The CTA testified to the City Council on March 6 that 2,200 of CTA's 2,700 buses lack two-way radios and identification beams. Under pending contracts, CTA will equip 500 more buses and buy 500 equipped new buses, after which 1,700 of 3,200 buses will still lack two-way radios and identification beams.
4. On rapid transit trains, except for two-car night trains, the conductors have no equipment to communicate with the motorman or the central CTA office.
5. In subway stations, the absence of a "lossy" line prevents police officers from using their portable radio telephones to communicate with the outside.
6. A maximum of 250 Chicago police officers are available to patrol and protect 170 rapid transit stations 24 hours a day.
7. The need for the universal communication facilities on all CTA equipment is overwhelmingly urgent. Its absence is an assurance of crime and an invitation to passenger insecurity.

Resolved by the City Council of the City of Chicago:

The Mayor and the Chicago Transit Authority are rquested to take immediate steps leading toward the speedy:

1. Extension to all buses of two-way radios and identification beams,
2. Equipment of all rapid transit conductors with devices for radio communication with motorman and the CTA center, and
3. Installation of the necessary line to permit use of radio communication equipment in subway areas.
4. Establishment of an adequate uniformed police force assigned solely to safeguard CTA passengers.

On motion of Alderman Marzullo the foregoing proposed resolution was *Adopted,* by yeas and nays as follows:

Yeas—Aldermen Roti, Barnett, Holman, Despres, Sawyer, Wilinski, Cousins, Adduci, Vrdolyak, Bilandic, Staszcuk, Burke, Lawlor, Langford, Shannon, Hines, Fitzpatrick, Kelley, Stewart, Stemberk, Rhodes, Marzullo, Zydlo, Ray, Washington, Filippini, Keane, Gabinski, Frost, Aiello, Casey, Cullerton, Laurino, Simon, Natarus, Singer, Simpson, Fifielski, Cohen, Hedlund, Wigoda—41.

Action Deferred—ON PROPOSED ORDINANCE FOR AMENDMENT OF CHAPTER 28 OF MUNICIPAL CODE CONCERNING OPERATING EXPENSES OF TAXICAB COMPANIES.

The Committee on Local Transportation submitted the following report, which was, at the request of two aldermen present (Alderman Marzullo and Alderman Aiello) *Deferred* and ordered published:

CHICAGO, March 30, 1973.

To the President and Members of the City Council:

Your Committee on Local Transportation, to which was referred (on March 14, 1973) a proposed ordinance to amend Section 28-22 of the Municipal Code of Chicago concerning operating expenses of taxicab companies, begs leave to recommend that your Honorable Body do not pass the said proposed ordinance transmitted herewith.

This recommendation was concurred in by 8 members of the committee, with 1 dissenting vote.

Respectfully submitted,
(Signed) VITO MARZULLO,
Chairman.

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Whereas, A recent series of articles appearing in the Chicago Daily News have indicated that Yellow Cab Co. and Checker Taxi Co., the holders of more than 80% of the taxi licenses issued by the City of Chicago have placed all their liability insurance, required by section 28-12 of the Municipal Code with Calumet Mutual Insurance Co.; and

Whereas, Said insurance company is a part of the conglomerate that also controls Checker Taxi Co. and Yellow Cab Co.; and

Whereas, Such an arrangement raises the appearance of impropriety in that said insurance company can set high premiums, thereby increasing the profits of the conglomerate, while at the same time allowing the holder of taxi licenses to include the cost of said insurance in their total operating expenses, thereby allowing the cab companies to withhold services under section 28-22; and

Whereas, The City of Chicago has the duty to provide efficient taxicab service; now, therefore,

Be It Ordained by the City Council of the City of Chicago That:

Section 1. The Municipal Code of Chicago be and hereby is amended by adding to section 28-22 the following words and symbols:

"Provided, however, that no sums shall be included in total operating expenses that are paid for any goods or services to any person, partnership, company or corporation which the licensee controls or did control, directly or indirectly through a third party, or which controls or did control the licensee, either directly or indirectly through a third party, or which is affiliated with the licensee by common ownership of any interest in both parties by a third party"

Section 2. This ordinance shall be in full force and effect on January 1, 1974.

Action Deferred—ON PROPOSED ORDINANCE FOR AMENDMENT OF CHAPTER 28 OF MUNICIPAL CODE CONCERNING CAB INSURANCE COVERAGE.

The Committee on Local Transportation submitted the following report, which was, at the request of two aldermen present (Alderman Marzullo and Alderman Aiello) *Deferred* and ordered published:

CHICAGO, March 30, 1973.

To the President and Members of the City Council:

Your Committee on Local Transportation, to which was referred (on March 14, 1973) a proposed ordinance to amend Section 28-12 of the Municipal Code of Chicago to increase the cost of insurance required of public passenger vehicles, begs leave to recommend that your Honorable Body do not pass the said proposed ordinance transmitted herewith.

This recommendation was concurred in by 8 members of the committee, with 1 dissenting vote.

Respectfully submitted,
(Signed) VITO MARZULLO,
Chairman.

The proposed ordinance transmitted with the foregoing committee report reads as follows:

Whereas, The City of Chicago, having the duty to supervise the transportation of passengers in taxicabs, has enacted a variety of ordinances for the regulation thereof; and

Whereas, Section 28-12 of the Municipal Code, being one of those ordinances, was enacted in 1951 and last amended in 1959 to provide that holders of licenses of public passenger vehicles carry liability insurance for each vehicle in the sums of $5,000.00 for property damage, $50,000.00 for personal injuries or death, and $100,000.00 for personal injuries or death of more than one person in any one accident; and

Whereas, The fourteen years intervening since the last amendment have seen a massive rise in the standard of living and a concomitant inflationary rise in the costs of goods and services, rendering any award granted under such insurance policies to the unfortunate victim of a taxicab accident inadequate to meet repair, medical or living expenses in 1973; now, therefore,

Be It Ordained by the City Council of the City of Chicago That:

Section 1. The Municipal Code of Chicago be and hereby is amended by striking the word "five" in section 28-12 and inserting thereto the word "twenty-five," by striking the word "fifty" in section 28-12 and inserting thereto the words "one hundred" and by striking the words "one hundred thousand" in section 28-12 and inserting thereto the words "three hundred thousand."

Section 2. This ordinance shall be in full force and effect on January 1, 1974.

Action Deferred—ON PROPOSED RESOLUTION FOR PUBLIC HEARINGS CONCERNING TAXICAB SAFETY AND SERVICE CONDITIONS, ETC.

The Committee on Local Transportation submitted the following report, which was, at the request of two aldermen present (Alderman Marzullo and Alderman Aiello) *Deferred* and ordered published:

CHICAGO, March 30, 1973.

To the President and Members of the City Council:

Your Committee on Local Transportation, to which was referred (on March 14, 1973) a proposed resolution to request the Committee to hold hearings concerning the present taxicab safety and service conditions, and to consider the issuance of additional taxi licenses and livery licenses, begs leave to recommend that your Honorable Body do not pass the said proposed resolution transmitted herewith.

This recommendation was concurred in by 8 members of the committee, with 1 dissenting vote.

Respectfully submitted,
(Signed) VITO MARZULLO,
Chairman.

The proposed resolution transmitted with the foregoing committee report reads as follows:

Whereas, It has been alleged recently in a local newspaper that Chicago faces a crisis in the area of taxicab service to some of our neighborhoods and indeed our entire city; and

Whereas, It is further alleged that taxicabs are operating with defective equipment, unsafe facilities and improperly trained personnel; and

Whereas, The articles allege that the licensing ordinances relating to cab licensing have created conditions that constitute a monopoly for some existing license holders and unequal, inadequate service to certain areas of our city; and

Whereas, The number of taxi license held by certain companies are alleged to be without use; and

Whereas, Unemployment is on the increase and returning war veterans could use this as wholesome employment; and

Whereas, There is a question whether we should consider issuance of additional taxi licenses and livery licenses to properly serve the Chicago area; now, therefore,

Be It Resolved, That the City Council of Chicago request the Committee on Local Transportation to hold hearings on the questions raised in this resolution, with a view toward recommending solutions if any of the aforementioned allegations are verified.

Action Deferred—ON PROPOSED RESOLUTION CONCERNING RESIGNATION OF PUBLIC VEHICLE LICENSE COMMISSIONER.

The Committee on Local Transportation submitted the following report, which was, at the request of two aldermen present (Alderman Marzullo and Alderman Aiello) *Deferred* and ordered published:

CHICAGO, March 30, 1973.

To the President and Members of the City Council:

Your Committee on Local Transportation, to which was referred (on March 14, 1973) a proposed resolution to call for the resignation of the Public Vehicle License Commissioner, begs leave to recommend that your Honorable Body do not pass the said proposed resolution transmitted herewith.

This recommendation was concurred in by 8 members of the committee, with 1 dissenting vote.

Respectfully submitted,
(Signed) VITO MARZULLO,
Chairman.

The proposed resolution transmitted with the foregoing committee report reads as follows:

Whereas, In a series of articles which recently appeared in the Chicago Daily News, Reporter Philip J. O'Connor details the defective taxicabs and the monopoly conditions in the taxicab industry in the City of Chicago, which peril the people of Chicago and which deprives the public of the "safe, Sanitary city-wide taxicab transportation" required under the city code; and

Whereas, The Public Vehicle License Commissioner under Section 21-1 of the Municipal Code of the City of Chicago is "in control of the administration and enforcement of the provision of this code and all ordinances relating to public passenger vehicles" and as such has the duty under section 21-4 to make such investigations as he deems necessary for the proper performance of his functions; and

Whereas, The functions of the public Vehicle License Commissioner of the City of Chicago include:

1. Insuring that only licensed taxicabs operate within the City of Chicago. (28-2).

2. Suspending the license of any taxicab if such a vehicle shall become unsafe for operation of or if its body or seating facilities shall be so damaged, deteriorated or unclean as to render said vehicle unfit for public use. (28-14) and CH. 195A, section 7.

3. Insuring that all members of the public have safe, sanitary city-wide taxicab transportation (Section 28-28 and Chapter 195A, section 7, and

Whereas, Despite numerous pleas by members of this City Council; despite hearings before the Committee on Local Transportation; despite the article "Me and My Yellow" written by Edward Manaker in the Chicago Sunday Tribune on January 30, 1972; despite many articles on cab safety published periodically in the Chicago South Suburban News; despite a WLS-TV news story detailing the dilapidated and unsafe conditions of taxis at O'Hare Airport; despite the series of articles recently printed in the Chicago Daily News; despite repeated complaints from labor representatives of the taxicab drivers; despite Chicago Police Department statistics showing a 200% increase in the rate of personal injuries suffered in cab-related accidents since 1967, while there has been an 8% decrease in the same rate for non-taxicab vehicles in the

City of Chicago; and despite the Public Vehicle License Commissioner's own powers of observation, there has been no real investigation or inspection of those public vehicles to insure the safety of Chicago's taxicab passengers, drivers, and the general public as the specified duty of that office requires; and

Whereas, In spite of ordinances to the contrary, "jitney" or unlicensed cabs operate with impunity in some areas of the City of Chicago, in an apparent allocation of certain geographic areas so as to deprive "city-wide taxicab transportation" to certain people of the City of Chicago; now, therefore,

Be It Resolved, That the City Council of the City of Chicago finds that the Public Vehicle License Commissioner of the City of Chicago has grossly failed to perform the duties of his office and demand is made that he vacate that office forthwith.

OFFICE OF THE MAYOR
CITY OF CHICAGO

April 16, 1973.

Honorable John C. Marcin,
City Clerk,
Room 107, City Hall,
Chicago, Illinois 60602

DEAR MR. MARCIN—I have called a special meeting of the City Council for the purpose of paying honor to the life and memory of our beloved colleague and friend, Hon. William J. Cullerton, Alderman of the 38th Ward. The meeting is to be held on Tuesday, April 17, 1973, at 11:00 A.M. in the Council Chamber in the City Hall.

Very truly yours,
(Signed) RICHARD J. DALEY,
Mayor.

Resolution Adopted on Death of William J. Cullerton, Alderman, 38th Ward.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom has called to his eternal reward on April 14, 1973, William J. Cullerton, Alderman of the 38th Ward in the City of Chicago; and

WHEREAS, Alderman Cullerton was born and raised in Chicago. He came from a family with a tradition of public service. His father was a Chicago fireman and both his brother and an uncle served on the City Council before him. Alderman Cullerton succeeded his brother as 38th Ward Alderman in 1958. He was Chairman of the City Council's Committee on Forestry and Recreation at the time of his passing. Prior to becoming Alderman he worked for 25 years for the City of Chicago's Department of Water and Sewers and was Assistant Commissioner of the Department at the time of his election to the City Council; and

WHEREAS, Alderman Cullerton was truly representative of the people he served, living in the same neighborhood all his life, giving constant support to many local charitable and civic organizations and devoting many long hours to the solution of community problems; and

WHEREAS, Alderman Cullerton's deep interest in the quality of life for residents of the City, as well as for those in his own 38th Ward, was reflected by his interest and concern in promoting programs of recreation, beautification, neighborhood conservation and education; and

WHEREAS, Alderman Cullerton gained the respect and affection of his fellow aldermen in the City Council by his friendly and buoyant spirit, his keen sense of humor and his energetic attention to committee assignments; and

WHEREAS, Alderman Cullerton in more than forty years of service to this city and its residents, and in his daily personal association with his many colleagues, friends and neighbors in conscientious attention to his duties, won the universal affection of friends, neighbors and associates, who now mourn his departure; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago in special meeting assembled this 17th day of April, A.D. 1973, do hereby express publicly their great sorrow at the passing of their colleague and friend William J. Cullerton, a distinguished public servant, and do acknowledge with regret the void that his passing leaves in this community, and extend to his wife Martha and his daughter Mrs. Betty Lavelle their sincere sympathy; and

Be It Further Resolved, That a suitable copy of this memorial resolution be presented to Martha Cullerton, widow of Alderman William J. Cullerton.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman (seconded by Aldermen Bilandic, Laurino, Casey, Simon, Aiello, Burke, Vrdolyak, Gabinski, Frost, Stewart, Hines, Fifielski and Zydlo) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Holman and the seconding Aldermen all expressed their profound regrets at the passing of Alderman Cullerton. This Special Meeting was characterized by a unanimity of feeling that the late Alderman had been a truly outstanding member of the Council, one who had loved his Ward, his City and was devoted to doing the best possible job in his own hard working way. It was noted that his death had been a profound shock to one and all. His presence at the last meeting of the Council was recalled with nostalgia. He was cited as having a most keen sense of humor and the only uncharitable remark he was ever known to voice had to do with lawyers when he remarked "that he had to listen to them practice on us poor laymen". It was also noted that while he had been short of stature he had been a "giant" because of the largeness of his heart. He was cited for having been a humble man, one who had never been overawed with his office, and all agreed that he had been a most charitable and understanding man, one who had served with dignity and pride. It was further noted that he had been a colorful person, a meticulous dresser and one who had always been willing to extend a helping hand. All the Aldermen agreed that "Willie", as he was affectionately known, had been a real gentleman. All expressed their great sorrow at his death and all extended their profound sympathy to his bereaved family.

OFFICE OF THE MAYOR
CITY OF CHICAGO

April 16, 1973.

Honorable John C. Marcin,
City Clerk,
Room 107, City Hall,
Chicago, Illinois 60602

DEAR MR. MARCIN—I have called a special meeting of the City Council for the purpose of paying honor to the life and memory of our beloved colleague and friend, Hon. William J. Cullerton, Alderman of the 38th Ward. The meeting is to be held on Tuesday, April 17, 1973, at 11:00 A.M. in the Council Chamber in the City Hall.

Very truly yours,
(Signed) RICHARD J. DALEY,
Mayor.

Resolution Adopted on Death of William J. Cullerton, Alderman, 38th Ward.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom has called to his eternal reward on April 14, 1973, William J. Cullerton, Alderman of the 38th Ward in the City of Chicago; and

WHEREAS, Alderman Cullerton was born and raised in Chicago. He came from a family with a tradition of public service. His father was a Chicago fireman and both his brother and an uncle served on the City Council before him. Alderman Cullerton succeeded his brother as 38th Ward Alderman in 1958. He was Chairman of the City Council's Committee on Forestry and Recreation at the time of his passing. Prior to becoming Alderman he worked for 25 years for the City of Chicago's Department of Water and Sewers and was Assistant Commissioner of the Department at the time of his election to the City Council; and

WHEREAS, Alderman Cullerton was truly representative of the people he served, living in the same neighborhood all his life, giving constant support to many local charitable and civic organizations and devoting many long hours to the solution of community problems; and

WHEREAS, Alderman Cullerton's deep interest in the quality of life for residents of the City, as well as for those in his own 38th Ward, was reflected by his interest and concern in promoting programs of recreation, beautification, neighborhood conservation and education; and

WHEREAS, Alderman Cullerton gained the respect and affection of his fellow aldermen in the City Council by his friendly and buoyant spirit, his keen sense of humor and his energetic attention to committee assignments; and

WHEREAS, Alderman Cullerton in more than forty years of service to this city and its residents, and in his daily personal association with his many colleagues, friends and neighbors in conscientious attention to his duties, won the universal affection of friends, neighbors and associates, who now mourn his departure; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago in special meeting assembled this 17th day of April, A.D. 1973, do hereby express publicly their great sorrow at the passing of their colleague and friend William J. Cullerton, a distinguished public servant, and do acknowledge with regret the void that his passing leaves in this community, and extend to his wife Martha and his daughter Mrs. Betty Lavelle their sincere sympathy; and

Be It Further Resolved, That a suitable copy of this memorial resolution be presented to Martha Cullerton, widow of Alderman William J. Cullerton.

Alderman Holman moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Holman (seconded by Aldermen Bilandic, Laurino, Casey, Simon, Aiello, Burke, Vrdolyak, Gabinski, Frost, Stewart, Hines, Fifielski and Zydlo) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Holman and the seconding Aldermen all expressed their profound regrets at the passing of Alderman Cullerton. This Special Meeting was characterized by a unanimity of feeling that the late Alderman had been a truly outstanding member of the Council, one who had loved his Ward, his City and was devoted to doing the best possible job in his own hard working way. It was noted that his death had been a profound shock to one and all. His presence at the last meeting of the Council was recalled with nostalgia. He was cited as having a most keen sense of humor and the only uncharitable remark he was ever known to voice had to do with lawyers when he remarked "that he had to listen to them practice on us poor laymen". It was also noted that while he had been short of stature he had been a "giant" because of the largeness of his heart. He was cited for having been a humble man, one who had never been overawed with his office, and all agreed that he had been a most charitable and understanding man, one who had served with dignity and pride. It was further noted that he had been a colorful person, a meticulous dresser and one who had always been willing to extend a helping hand. All the Aldermen agreed that "Willie", as he was affectionately known, had been a real gentleman. All expressed their great sorrow at his death and all extended their profound sympathy to his bereaved family.

He expressed his appreciation for all the kind expressions but said it would be wrong for him to accept all the credit for the accomplishments of his department. He particularly thanked the members of the Finance Committee for their help. He also thanked the press, radio and TV for their efforts in trying to tell the story of the water system. He also said that it had been a privilege and a pleasure to have served under Mayor Daley. He mentioned that he and his wonderful wife had been married for forty-five years and that he had been blessed with wonderful children. He drew the Council's attention to the presence at the meeting of his oldest son, "Jim" and the "flower" of the family, his only daughter "Margie." He concluded by saying that his Mother in bestowing the highest praise she could, would say "he wore well"—Commissioner Jardine hoped that he had "worn well."

He began his career in utter poverty. By the time he became known as an artist, Picasso dropped the name of his father and retained that of his mother; and

WHEREAS, Throughout his long life, Picasso presented many faces and moods to the world, as varied as arts of which he was master. There was Picasso the cunning peasant; Picasso the idealist; Picasso the recluse; Picasso the roistering Bohemian; Picasso the adoring father. His ideas and example affected all of 20th Century Art. He was a leading member of an extraordinary generation of artistic creators who flourished around the turn of the century; and

WHEREAS, In his first years in Paris, Picasso passed through his blue and rose periods, so called for the dominant color of the paintings. About 1906, he came under the influence of Iberian sculpture, African masks and the work of Paul Cezanne and began to create works in angular planes and became a founder of the cubist school. He went through a neoclassical period in the 1920s; and a period of powerful expressionist work was climaxed by "Guernica"; and

WHEREAS, Picasso was not only one of the most inventive painters of history, but also one of the most productive. Rough estimates put his output at 13,000 to 14,000 paintings or designs, 100,000 prints or engravings, 34,000 book illustrations and 300 sculptures or ceramics; and

WHEREAS, Pablo Picasso became a permanent part of Chicago, forever tied to the city he admired but never saw, in a country he never visited, on August 15, 1967. It was on that day that the Picasso sculpture in the Civic Center Plaza was unveiled. Notwithstanding the discussion and controversy over the sculpture, there was no mistaking the fact that it was a Picasso, and its scale and impact were overpowering yet just right for its setting. It has become a part of Chicago, and so has its creator Picasso; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago in meeting assembled this 9th day of May, A.D. 1973 do hereby publicly express their sorrow at the passing of the world renowned and distinguished Artist, giant of the world of painting, Pablo Picasso; and

Be It Further Resolved, That as a mark of respect to the memory of Pablo Picasso, this resolution be spread upon the permanent record of proceedings of the City Council of the City of Chicago.

Alderman Fifielski moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Fifielski (seconded by Aldermen Hoellen, Bilandic, Langford and Stewart) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Mayor is authorized to execute, the City Clerk and the City Comptroller to attest and the Commissioner of Public Works to approve, upon approval of the Corporation Counsel as to form and legality, an agreement with the State of Illinois providing for the N. Lake Shore Drive Improvement, Ohio Street to Oak Street, described therein. Said agreement to be substantially in the following form:

This Agreement, entered into this .....day of ....., 19....., by and between the State of Illinois, acting through its Department of Transportation, and hereinafter called the State, and the City of Chicago, acting through its Department of Public Works, and hereinafter called the City.

WITNESSETH:

Whereas, the State and the City, in the interests of the safe and efficient movement of vehicular and pedestrian traffic, find it necessary to improve N. Lake Shore Drive from Ohio Street to Oak Street: said improvement consisting of bituminous resurfacing; construction or relocation of channelization structures; removal, relocation, replacement and adjustment of municipally-owned utilities; construction of a pedestrian-bicycle underpass located at Delaware Place; and other incidental work; and

Whereas, the State and the City are desirous of availing themselves of Federal-Aid Funds authorized for the TOPICS Program by the Federal-Aid Highway Act of 1968 for the construction of this improvement; and

Whereas, under the Federal regulations issued as "Policy and Procedure Memorandum 21-18, Urban Traffic Operations Program to Increase Capacity and Safety," dated May 12, 1972, certain written agreements are required.

Now, Therefore, the City agrees:

7. To maintain and enforce the traffic regulations necessary for the proper operation of the completed improvement.

ineligible for future Federal participation in projects for which the City has similar responsibilities, until such time as any deficiencies are corrected.

Now, Therefore, the State agrees:

9. To let and award a contract for the work and to provide construction supervision, all in accordance with established procedures of the City, the State, and the Federal Highway Administration.

DEAR MR. MARCIN—I have called a special meeting of the City Council for the purpose of paying honor to the life and memory of our beloved colleague and friend, Hon. Claude W. B. Holman, Alderman of the 4th Ward. The meeting is to be held on Monday, June 4, 1973, at 2:00 P.M. in the Council Chamber in the City Hall.

Honorable Richard J. Daley, Mayor, presented the Chicago Fire Department Chorus under the direction of Mr. Harry Walsh. The Chorus sang The Lord's Prayer.

The Mayor then presented Violinist Franz Benteler, who played "Going Home" from the "New World Symphony".

Resolution Adopted on Death of Claude W. B. Holman, Alderman, 4th Ward.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in His Infinite Wisdom has called to his eternal reward on June 1, 1973, Claude W. B. Holman, Alderman from the 4th Ward in Chicago and distinguished leader in the Democratic Party; and

WHEREAS, Our sorrow at his passing is shared by the people of his 4th Ward constituency, and by all Chicagoans who recognized his leadership as a potent force in municipal progress; and

WHEREAS, Alderman Holman was born in Topeka, Kansas on January 31, 1904. He came from humble beginnings and was fond of saying that he was born "in the front room of a three room cottage". He was graduated from Topeka High School, attended Loyola University and was graduated from John Marshall Law School. He was admitted to the bar of the State of Illinois in 1934 and, at the time of his death, was in the active practice of law in the firm of Westbrooks, Holman and E. F. Johnson; and

WHEREAS, Alderman Holman began his career in politics and government in 1934 when he assumed the position of Secretary to the first black Democratic Party Representative ever to sit in Congress, Arthur W. Mitchell. In 1949 he was appointed Master in Chancery of the Circuit Court of Cook County. He was elected Democratic Ward Committeeman of the 4th Ward Regular Democratic Organization in 1953 and served in that position with unyielding loyalty until his untimely death. Prior to his election as Ward Committeeman, he served as Senatorial Committeeman, from 1950 to 1954. He was elected Alderman of the 4th Ward in Chicago in 1955 and was serving his fifth four-year term in the City Council, for a continuous period of eighteen years. He had served as Chairman of the City Council's Judiciary Committee, and was currently the President Pro-Tempore of the City Council; Chairman of the Committee on Health and also Vice-Chairman of the Finance Committee; and

WHEREAS, Alderman Holman was an articulate legal authority and an early civil rights leader. He was one of the drafters of an ordinance to ban discrimination in housing because of race or religion. In the City Council he represented, not only the people of his ward, but the best interests of all the people of Chicago with fairness and impartiality. He was a public servant whose dedication and loyalty to the ideals of good government and the advancement of what was best for Chicago and all its people were well-known and eloquently documented in all of his public and private activities; and

WHEREAS, Words cannot adequately express the universal respect and affection of friends, neighbors and associates, who mourn the passing of Claude W. B. Holman who gave so much of himself in public service by conscientious attention to his duties and by deep concern for the well-being of the City he loved. The people of the City of Chicago have indeed lost and will long remember this distinguished and highly respected public official; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 4th day of June, A.D. 1973, do hereby publicly express our great sorrow at the death of our colleague and friend, Claude W. B. Holman, and do acknowledge with deep regret the void his passing leaves in this community, and extend to his family our sincere sympathy; and

Be It Further Resolved, That a suitable copy of this Memorial Resolution be presented to the family of Alderman Claude W. B. Holman.

Alderman Keane move to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Aldermen Frost, Stewart, Bilandic, Shannon, Sawyer, Marzullo, Barnett, Kenner, Burke, Cousins, Simon, Hoellen, Vrdolyak, Natarus and Adduci) the foregoing proposed resolution was *Adopted,* unanimously, by a rising vote.

Alderman Keane and the seconding Aldermen all conceded that Alderman Holman had been a most firm believer in his principles and would fight determinedly for those principles. It was noted that he had been in the forefront of the battle for equal opportunities for all citizens, and that he felt that the Democratic party was the party that would afford the greatest opportunities for advancement and his loyalty to his party was an outstanding part of his character. He was cited for having been an ardent supporter of Mayor Daley and had been loyal, dedicated and dependable. It was noted that his passing marked the closing of a unique era. He was also praised for his extreme helpfulness to the freshmen Aldermen, for having created an atmosphere of paternal aid and counsel, and that he had never been too busy to share the benefits of his experience. Throughout all the remarks eulogizing the late Alderman, it was recognized that he had been a fighter, always for civil rights, and that he had left the arena while still a gladiator. His grasp and understanding of problems was due to hard work, study and a zeal to help his people. It was also noted that he had been criticized for not being more militant when in truth he had been truly a militant in the fight for recognition. It was pointed out that he had been one of the first to help indigent persons requiring legal assistance. He was also characterized as "a man for all Seasons". All extended condolences to the family.

PRESENTATION OF DISTINGUISHED VISITORS.

Honorable Richard J. Daley, Mayor, called the Council's attention to the presence at the meeting of the following distinguished guests:

Honorable Nick Melas, Trustee, The Metropolitan Sanitary District of Greater Chicago;

Honorable James Murray, Judge, Illinois Appellate Court;

Honorable John H. Stroger, Jr., Cook County Commissioner;

Honorable William Harvey, Cook County Commissioner;

Honorable Archibald J. Carey, Jr., Judge, Circuit Court.

The Mayor also informed the members of the Council that the late Alderman's brothers and sisters were present at the meeting.

—

Honorable Richard J. Daley, Mayor, also addressed the Council expressing his profound sense of loss upon the death of the late Alderman. He told of the first time he had met Alderman Holman at the Democratic Convention in Philadelphia in 1948 and how impressed he had been with his ability, and tenacity in fighting for a strong civil right's platform and that due to his efforts the Convention adopted the minority committee's report. The Mayor praised him for his courage and leadership. "No man had a more loyal friend". The Mayor also said that there had never been a middle of the road for "Claude"—everyone always knew just where he stood. He concluded by saying that his loss was a tragedy for the City, the State and the Country.

—

The Mayor then called upon the Chicago Fire Department to sing "Beautiful Saviour".

ADJOURNMENT.

Alderman Burke moved that the City Council do *Adjourn.* The motion *Prevailed* and the City Council *Stood Adjourned.*
